

**OWNER**

Stockton Unified School District

**LOCATION**

Garden Acres, CA

**ARCHITECT**

Lionakis

**PROJECT VALUE**

\$73,000,000

**PROJECT AREA**

8,200 SF

**COMPLETION DATE**

2012

**SERVICES**

- Mechanical Engineering
- Plumbing Engineering
- Fire Sprinkler Criteria
- Title 24 Energy Analysis
- Foodservice Consulting and Design
- Whole Building Commissioning
- CHPS Documentation
- BIM Integration and Modeling

**AWARDS**

N/A

**CERTIFICATION**

CHPS Designed

**FRANKLIN HIGH SCHOOL FOOD COURT BUILDING**

The renovation to the main building on Franklin High School’s existing campus included accessibility upgrades, HVAC, electrical, lighting, sound system, seating, finishes and acoustical treatments, and new food court building.

Capital provided comprehensive Kitchen Design Services by incorporating robust Revit content and visualization capabilities into our initial design and documentation. Working with Revit enhanced collaboration between the designer and the facility operator, enabling a dialogue about how the staff will work within the space.

The District’s kitchen personnel are now able to view the operation’s functional space much earlier in the process. As a result, we can create a more functional space within a tighter area.
